

Robbers Caught In Robbery Attempt

In the early hours of Thursday morning, May 23, there was just too much excitement around our little village for comfort.

Some professional thugs visited here and proceeded to break and enter Pendleton's coffee shop and garage, Hansen's service station and the premises of Hutchinson and Co. Then they broke into the J. C. McFarland store and were busy footling it when two of the town policemen from Wainwright happened along. They quickly sized up the situation and acted accordingly. One took the keys from the robbers' car while the other called Mr. Clumstead and also the RCMP. Unable to move the car, the thugs fled on foot. Road blocks were set up, a blood hound was brought in and the chase was on.

One bandit was caught walking on the highway tracks about 3 miles east of here. Another tried hitchhiking with Gus Prosser who phoned the police and brought about his capture. Still a third was caught in Edmonton.

We understand the stolen car had a B.C. license and contained enough nitro glycerin to blow up the whole of Irma.

Jarrow News

The W.A. will meet at the home of Mrs. Ralph Mark on Tuesday, June 4 at 2:30 p.m. Housewives, Mrs. Bridgeman and Mrs. Mark. Visitors always welcome.

Mr. and Mrs. B. and Sandra were visiting friends around Jarrow last Friday.

Mrs. Ambrose Eklund was a patient at the Viking hospital for a few days recently.

The Melrose and Jarrow congregations have purchased a car for the Jarrow field, to be used by the student minister.

The No. 14 highway just beyond Jarrow is the scene of considerable activity and crews are busy getting the highway ready for asphalt surfacing.

Mr. and Mrs. G. Lovig spent last Wednesday in the city.

Mr. and Mrs. Sonoff and family visited with Carl and Irma Sonoff on Sunday.

Mr. and Mrs. McLehew and family spent Sunday at the G. Matthews home.

Mr. and Mrs. Ernest Beer and family of Edmonton were recent visitors at the H. Beer home.

Mr. Bud Beer and Miss Opal Lundberg spent Sunday at the former's home. Bud is employed by a construction company near Scottsville.

Mrs. G. Donovon and boys and Mrs. Lister of Edmonton visited with the Beltons on Sunday.

The younger members of the Metropolitan district celebrated May 24 in true "hang-up" style when Gilbert Mullen, who is leaving with his grandparents and attending Metropolitan school entertained his fellow-pupils to a fireworks party complete with rockets, flares and Roman candles and to the delight of all, two very realistic burning school-buses. All report a wonderful time.

Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

And it came to pass, that as He was praying in a certain place, when He ceased, one of His disciples said unto Him, Lord, teach us to pray, as John also taught his disciples. And He said unto them, when ye pray, say, Our Father which art in heaven, hallowed be Thy name. Thy kingdom come. Thy will be done, as in heaven, so in earth.

Give us day by day our daily bread. And forgive us our sins; for we also forgive every one that is indebted to us. And lead us not into temptation; but deliver us from evil.

St. Luke 11:1-4

Missionary to Hold Convention Here

Costumes, curio and 35 m.m. slides will be special features at this year's missionary convention being held from June 6-9 in the Irma Alliance Church, with Rev. D. Grant Crooks, Africa, as guest missionary.

In the Great French West Africa field of the Christian and Missionary Alliance, the Black Bobo people, one of several large tribes still not occupied by the Society, had long made a strong appeal for a resident missionary. So, the mission chose Rev. Crooks who arrived on the field in 1952, to respond to that repeated appeal and he was stationed at San in an adjoining tribe to begin the necessary pioneer work.

Mr. Crooks made extensive geographic and linguistic surveys across the Black Bobo northern frontier, reducing the language to writing and starting translation of the Scriptures and Christian hymns. In the following year he was transferred to Sandigou station south of the Black Bobo tribe and crossed the frontier making surveys and extensive comparisons of the two areas, north and south.

Now in America, Rev. Crooks regards his furlough merely as an interlude before he returns to resume the Black Bobo project.

The public is given a very cordial invitation to hear this outstanding missionary — each week night at 8 p.m. and Sunday morning at 10:30 and 11:30 in the Alliance Church.

CHURCH SERVICES

ST. MARY'S CHURCH NOTES
There will be Celebration of Holy Communion in St. Mary's Church on Sunday, June 2 at 2 p.m. Sunday School will follow immediately after this service.

THE ALLIANCE CHURCH

Sunday, 10:30 a.m. Sunday School.
11:30 a.m. Morning Worship.
Tuesday 8 p.m. Prayer meeting.

June 6-9, Rev. D. Grant Crooks, Africa, guest speaker of Annual Missionary Convention. Week nights at 8 p.m. Sunday morning at 10:30 and 11:30 a.m. Rev. L. D. Sheardown.

SHARON LUTHERAN

Sunday, June 2
Sunday School and Bible Class 2 p.m.
Divine Worship 3 p.m.
L. Knudson, Pastor.

Mr. and Mrs. Leo Dahl from North Dakota are visiting here with their uncle and aunt — Mr. and Mrs. A. E. Knudson.

Mr. and Mrs. J. Craig of Edmonton were Irma visitors this week.

Among those from out of town who attended the funeral service for the late Robert D. Glasgow were Mr. and Mrs. Albert Larson of Drayton Valley, Mr. Clayton Larson, Guy Strand and Mrs. Chas. Clark and Ricky of Edmonton, Mr. and Mrs. Chris Emsland of Lloydminster, Mr. and Mrs. R. Patterson of Hondo, Mr. and Mrs. Schainick of Rollo View.

Funeral Service For Robert Glasgow

Friends in Irma and district were shocked when they learned of the tragic death of Robert David Glasgow, younger son of Mr. and Mrs. Gerald J. Glasgow, who was struck by lightning while playing on the Irma school grounds at noon on May 16.

Robbie was born at Wainwright on February 2, 1943 and had attended school in Irma. He had a happy disposition, a ready smile, and was well known to all the folks in the community.

Funeral services were conducted by the Rev. H. W. Ingles and Rev. L. Sheardown from the Irma United Church on May 20. The pallbearers who were all former school chums, were Alan Symington, Jimmie Mason, Bill Miller, Danny Miles, Gary Hubbard and Dennis Worthing.

Interment took place in the Irma Cemetery.

Many beautiful floral tributes were received from:—

Mother, Dad, brother Richard, sisters Vera and Betty; Aunt Aletha, uncle Albert and family; Aunt Adelaide, uncle Glen and family; Aunt and uncle Lind-

the Grimes, Aunt Marie and family; Aunt Gladys, Uncle Bill and family; Myrtle, Bob, Irene and Chubby and families; Aunt Cora, Uncle Chris and Cousin Corrie, Crystal and Lyle; Uncle Albert, Asta and children; Aunt Margaret, Uncle Gordon and family; Aunt Connie, Uncle Ralph and family; Hanson, Vera and family; Aunt Bessie, Uncle Rich-

Scott, Jean and Sandy; Miss K. Younger and Grade 1 Pupils; Donald and Edith Gunn and family; Mrs. Ballentine and Grade 9 Pupils; Irma Midgley Hockett Team; Agnes, Jim and Margaret; Mr. and Mrs. McFarland; Mr. and Mrs. C. L. Pendleton and Mr. and Mrs. J. Lewis; Mr. and Mrs. G. B. Worthing and family; John, Christina, Helen and family; Joe and Serena Hansen and family; Thelma, Ralph and family; Mrs. D. B. Weaver; Mrs. Walter

Mr. and Mrs. S. Congdon and family; Ralph, Jean and family; Mr. and Mrs. Colin Desjardins; Ivan and Barbara; Edna and family; 10 Wks. Coy. and Army Personnel; Mr. and Mrs. Murray Ray; Flowers to the house from Alliance Sunday School Teacher and classmates.

Donations to the W.I. Cemetery Fund in memory of the late Robert D. Glasgow from Ole Halvorsen; Aunt Maxine and Uncle Louie and family; Aunt Goldie, Uncle Erling and family; Clara Lou and Clair Lukens; Mr. and Mrs. W. D. Ramsey; Mr. and Mrs. Carl Anquist and family.

Special Memorial Fund from Bill and Annie Patterson, Hondo; Carl and John Cardstone, Wainwright; Mr. and Mrs. M. Gregorie, Trenton, Ont.; Mrs. F. Wiege, Wainwright; The Employees of 12 Wks. R.C.M. and Wright Camp; Mr. and Mrs. Roy Olsen, Vancouver.

To the Alberta Protestant Home for Children from Mr. and Mrs. Orville Olsen and family; Vic, Dot and Jean Torrance; Harry, Bernice Long and family; Wes, Alice and Stanley Bacon; Miss Evelyn White, Ted, Ellen Prior and family; Eddie and Lorna Jackson; Jim, Minnie and Arthur Jackson; Mr. and Mrs. J. Marshall; Mr. and Mrs. Art Long; Mark and Marion Alford; Ted

Irma W.I. Notes

Have you got your entry in for the Baked Baking Contest on June 8? See posters regarding this contest in the local stores. Entries must be in the Legion Hall by 2:30 p.m. on June 8.

There will also be a Tea and Sale of Home Cooking in the hall beginning at 3 p.m.

Arrangements have been made to have the Rest Room re-opened very soon. Battle River, Buffalo Coulee, Strawberry Plains and Irma W.I.'s are being responsible for caretaker services.

Watch for further notice regarding a clean-up day at the Irma Cemetery.

Northern Nuggets

The many friends of Mrs. George Hardy were saddened to hear of her passing on Thursday, May 23 at the Mannville Hospital. The heartfelt sympathy of the community is extended to Mr. Hardy and family in their great loss.

A number of people from this district availed themselves last Sunday of the opportunity of hearing the CLC choir in Irma. It was a privilege indeed to see this fine group of young people and enjoy their superb program of sacred music.

On Tuesday Mr. Golka of Viking drilled a 200 ft. well with an abundance of soft water, on the farm of Mr. Robt. Lukens. Succeeded in a record. We understand Mr. Golka is now drilling on the Chiswell farm.

Miss Lois Patterson substituted for a few days last week at Albert during the absence of Mr. Sporritt and Mrs. Ivan Hardy.

On Monday Mr. David Currie, Mrs. Wm. Armstrong and Eileen and Mrs. Allen Cox, all of Edmonton, visited briefly at the C. L. Currie home.

Mr. and Mrs. Bill Walker visited relatives in Mannville on Sunday.

Messrs. Jack Seward, Frank Crabb and Dave Holt were on a fishing trip to Long Lake on Sunday.

Joyce Dootson spent the week-end with her chum Carolyn Inklin.

Norma Dootson spent the week-end with Edna Crabb.

Mr. Jack Taylor, Mr. and Mrs. B. Veer, Darlene and Greg were city visitors Tuesday.

The Battle River W.I. Bazaar will be held in Larry's Pool, Market Saturday, June 1 starting at 3 p.m.

Passed Away in Stettler

The community was saddened Monday afternoon to learn that its grand old man, Mr. "Col." J. N. Rohrer had passed away in Stettler Municipal Hospital at the advanced age of 93 years.

This picture was taken at Stettler's Jubilee Celebration in 1955 when he led the parade, just as he had led most of the parades in the past.

Mr. Rohrer had been in remarkably good health up until the time of his final illness, which began last March.

He came to Stettler from Barton County, Miss., in 1906 and for many years was the community's foremost auctioneer.

Funeral services were held at Stettler Nazarene church on Wednesday, May 15 at 2:30 p.m.

The late Mr. Rohrer is survived by three sons, Gus of Edmonton, Dick of Irma and Buster of Vancouver, and two daughters, Mrs. Mabel Neff of Calgary, and Mrs. Nan Reilly of Stettler. There are also seven grandchildren, 15 great-grandchildren, one niece and six nephews. — From Stettler Independent.

Hulless oats and their use

Hulless oats have been available commercially for many years. Two varieties developed in Canada in the early years were Liberty, which was distributed in 1914, and Laurel, distributed in 1922. Both of these varieties were susceptible to the rusts and smuts and, of the two, Laurel achieved the greater popularity. Brighton, which was distributed in 1941, largely replaced these two varieties. This variety is also susceptible to the rusts, but is highly resistant to smut. All three varieties were developed at the Cereal Crops Division, Experimental Farms Service, Ottawa. Another variety, Torch, was distributed in 1952 by the University of Saskatchewan. It is resistant to smut and to all races of stem rust, except race 7A, but is completely susceptible to crown rust. Year's late latest hulless variety to be produced. It was developed at the Cereal Breeding Laboratory, Winnipeg, and is being distributed for seeding this year.

Patterns

Quickly Memorized

by Alice Brindle

You'll win prizes with this quick-to-crochet medallion. It lends itself to both fine and coarse yarn. Make small articles or plan a bedspread or tablecloth—beirloom.

Pattern 7180, complete directions. An easy design to crochet—you'll memorize it in no time.

To obtain this pattern send thirty-five cents in coins (stamp cannot be accepted) to:

Household Arts Department,
Front Street, W., Toronto

Be sure to write plainly your Name, Address, and Pattern Number.

Two FREE patterns—printed in our ALICE BRINDLE book—stunning designs for yourself, for your home—just for you, our readers! Dazzle us with your designs to order—all easy, fascinating handwork! Send 25 cents for your copy of this wonderful book right away!

It is superior to the other varieties in disease resistance since it is resistant to all races of stem rust, to the majority of the prevalent crown rust races, and to smut. Hulless oats are used mainly as a feed for young pigs and poultry. Fibre or hull in the ration of young pigs is of little nutritional value, and in weanling pigs often acts as an irritant. On the other hand, fibre is an advantage in the later stages of finishing as it curtails excessive fattening. For poultry, fibre also has little nutritional value. It forms an indigestible bulk which limits the intake of more digestible nutrients required for growth and egg production.

There are a number of problems associated with growing hulless oats. Since they tend to heat in storage, they must be harvested when well ripened and stored in a well ventilated place only when thoroughly dry. This is a limiting factor in their production. They are not satisfactory for milling purposes, because the kernels which lack a protective hull readily collect dust at threshing time. Millers prefer to dehull the commonly grown hulled oat as they provide a cleaner sample, which is essential for their purpose.

Another problem that confronts the grower of hulless oats is that all varieties tend to produce some plants with hulled kernels. This brings up the question of the need for establishing a tolerance of hulless oats for hulled types when the crop is to be sold for seed. Other matters that may have to be dealt with are bushel weight and grade. If hulless oats become more widely grown, a separate standard for bushel weight as well as separate seed grain standards may have to be established.

Against these disadvantages, hulless oats have a greater energy producing value than hulled oats, and may have a more important place in the farm economy of the future.

Warble fly losses high in West

At least \$4,000,000 a year in losses are sustained by western Canadian cattlemen and farmers through improper control of the warble fly.

Saskatchewan has the poorest reputation in the west for warble fly, and the fly grub cause considerable damage in cattle hides, carcasses and loss of choice meats.

Not only is there a financial loss for those people, but the cattle suffer from this fly as much as humans would from boils on their skin.

A warble fly spraying program has been started in the municipality of Lost Mountain valley and there will be a meeting in Duval within days to instruct the farmers on how best to rid their cattle of this pest.

If cattle afflicted by the fly would be sprayed today with DDT, says a report in a month, it would completely eliminate the fly in the province.

But it is difficult to get everyone to do it.—The News, Wolsley, Sask.—March 27, 1957.

Board approves plan for new school safety patrol

Inauguration of a school safety patrol—trained students conducting children across busy intersections—was approved at Monday's meeting of the Milton public school board after Constable Ron Rupert of the town O.P.P. detachment explained the unit and its operations. The move would not cost the board a cent, he explained, and would go into effect next term.

Const. Rupert said a class of instruction by the Ontario Safety League would be held for three or four weeks. The boys taking the patrol duties would probably be chosen from the senior grades, and there would be six patrolmen in each school.

Supervising principal E. W. Foster spoke heartily in favor of the new scheme, noting that he favored anything that will give the children responsibility and said it was a fine thing for the children to accept responsibility for other children.

MAIN CENTRE MAN OWNS OLD CLOCK—Abe Reimer, Main Centre, is shown with what is probably one of the oldest clocks in the district—a 126-year-old timepiece which belonged to his grandfather, Henry F. Schulz, a well-known pioneer and minister of the Mennonite Church, who farmed a three-quarter section near Main Centre.

The clock, believed to be made in Russia, was repainted in 1940, but is supposed to be 25 years older, fixing the date of its creation around 1815. Mr. Reimer had asked his grandfather for the clock, as he is the eldest of 28 grandchildren. Mr. Schulz gave it to his grandson on January 9, previous to his death the next day, caused by a heart attack.

The clock keeps approximate time, working on a weight system. Every week a five-pound weight is pulled up, and it gradually comes down, thus working the clock. It is in good condition, but needs cleaning and oiling, Mr. Reimer said. The hands are in one solid piece and, when the face shows 11:30, the time is actually 12 o'clock.

Mr. Reimer said that his great-grandfather came to this country from Russia when he was eight years old. Mr. Schulz traded a new alarm clock for the relic when he was a young man. He was visiting relatives in Manitoba, who had originally come from Russia, which leads Mr. Reimer to believe the clock came from that country.

On The Side: E. V. Durling

How speedy is your secretary? How about clocking her? If she can take dictation at the rate of 100 words per minute she only equals the speed of an average stenographer. Speedy secretaries can take as high as 200 words a minute. Maxine Angus of London, Eng., world's speediest stenographer, takes dictation at the rate of 400 words a minute.

"SHIRTING" AROUND THE PROBLEM

What fates as the most ridiculous feminine style of the 20th century? My nomination is the so called "hobble skirt". Now it is reported that style is going to be revived. If you don't know what a hobble skirt is, ask your grandma to draw you a picture of one. If the hobble skirt achieves current popularity, I am definitely going to give up trying to understand women and devote my time to trying to understand horses.

FACTS ABOUT FIGURES

Chinese women retain their youthful figures longer than the females of any other country. Even when crowding 50, most Chinese women are well streamlined as when in their twenties. What women lose their girlish figures sooner? It is the Spanish women. In their twenties, Spanish women are sensationally attractive. The average measurements of Spanish women in that age group are bust, 36; waist, 25, and hips, 35. The average for Spanish women of 33 years and over are 40-31-38.

FOR FELINE FANCIES

Do you know the difference between an Aeolophile and an Aeolophobe? If not please be informed that an aeolophile is one who is fond of cats, while an aeolophobe is one who doesn't care for them. The world's greatest aeolophile is probably Ernest Hemingway. In his home near Havana, Cuba, he has 50 cats and one dog. Many great men have had a fondness for felines, among them Cardinal Richelieu, who had 14 of them.

HUFFY ABOUT THEIR HANDBAGS

In Italy two women with similar handbags are seldom seen. A fashionable Italian female wants her handbag individually styled. If she sees a woman with the same style bag it enrages her. You know, same as when two Canadian women wearing the same style hat confront each other.

VISUAL TELEPHONE REVEALS ALL

The visual telephone, which enables the callers to see each other, has been in operation in Europe for nearly 20 years. When the bell rings on the visual telephone, you dial for a view of the caller. It will be very interesting to get a look at some of the people who have the wrong number. Especially if they are females with low throated voices. Incidentally some women may delay in answering until they have "fixed their face" or added to their attire.

SECRET OF THE "MONROE WIGGLE"

Marilyn Monroe is said to have achieved additional accentuation of that provocative manner of walking known as "the Monroe Wiggle" by the use of an especially constructed shoe which features very high heels. These shoes cost Miss Monroe about \$85 a pair and are made in London.

(An official department of the Canadian Amateur Sport and Physical Fitness Development Service)

By Lloyd Percival

How to play the infield

Here are some important tips on playing the infield.

1. Don't rush a grounder. Move into it coolly, with your muscles relaxed. Watch the ball carefully.
2. Always try to pick up a ball on a long bounce or just as it hits the ground. Don't try to field it in between. It takes lots of practice to judge a ball in this way, but it's certainly worth the time because it prevents many errors.
3. Field the ball well in front of you. Then, if you do fumble it, the ball will be easy to pick up again and throw.

Wrong emphasis

Within 10 years Canada will be short of cattle according to W. E. Watson, manager of Public Stockyards Markets of St. Boniface, Man. There is little doubt about that, says The Financial Post in regard to cattle and a lot of other food products too. By 1975, it has been estimated, wheat will be about the only Canadian farm product which we will be producing much in excess of our own requirements.

Actually there is no good reason why Canadian farmers should not be able to meet most future demands for cattle and other farm products that will be needed. But this won't happen as long as it is much easier and more profitable to grow wheat and sell it to a government board to be piled into storage even if we can't find an export outlet for it. But that is exactly what our official wheat policy is doing. It's about time we used some common sense and put the emphasis on those farm lands for which there is an assured market.—The Era and Express, Newmarket, Ont., Jan. 24, 1957.

Physical condition makes everything else possible. It's the only foundation on which you can build yourself a house full of championship honors. If you're really interested in your sports career, you'll do conditionally work every day—in the off-season as well. Take a tip from the champions—make your objective perfect physical condition.

Week's sew-thrifty

4766 2-3
by Anne Adams

Sew this adorable frock for daughter in a jiffy! See the diagram. It's the EASIEST! She'll love the style; cool scoop neckline, easy bow trim of contrast binding. Make several in easy-to-laundry cottons—keep her smartly dressed every day this summer!

Pattern 4766: Children's Sizes 2, 4, 6, 8. Size 6 requires 2 1/2 yards 36-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send forty cents (40c) in coins (stamp cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

Flow of offerings continues

(Contributed by Houston, Willoughby & Co. Ltd.)

Substantial volume and much variety characterized the new issue segment of the bond scene in Canada last week.

In the Corporation field official offering was made of the Canadian Dyno 6% bonds due 1963 with equity bonus as well as an offering of 37 1/2 million of Marshall Wells of Canada Ltd. \$1 million of Northland Utilities Ltd. 5 1/2% 1st Mortgage Bonds with Warrants completed the picture.

The Canadian Dyno issue consists of \$9 1/2 million of 6% 1st Mortgage Bonds due May 1st, 1963. The bonus per \$500 bond amounts to 30 shares of stock in the company and the issue price is \$99 and interest to yield 6.20%.

The company is allowed to issue additional 1st Mortgage Bonds but only to the extent of 75% of additional property acquired after May 15th, 1967.

The company was incorporated in Ontario in 1941 and its important holdings are in the Bancroft Uranium Mining area.

The company's contract with the Crown Co. (Edmonton) on October 24, 1966, having estimated total value of \$34,816,070, to be delivered by March 31, 1968. In addition, Eldorado will hold an option to buy the company's total production (at about the same

Agreement completed for subdivision development

The city is agreeing to extend the water and sewer services as the development progresses and are not bound to make extensions beyond any current demands at any time.

A final plan for the development, involving a total of three quarters of a section of land immediately west of the present Hillside subdivision, is being drawn up along lines required by the Community Planning Commission.

Under the terms of the agreement, Canarama Limited will undertake certain development issues by the city for the extension of water and sewer services to the new development. In addition Canarama has agreed to spend up to \$100,000 additional to assist in the extension and construction of the water and sewer lines.

The entire strip for the half mile along Souris Avenue and north from King street is to be designated as a shopping and business area. The Mercury, Estevan, Sask.—April 11, 1967.

FIRST 'PHONE CABLE

The world's first transoceanic telephone cable, which started operations late in September, 1866, is armored against the ravages of the sea by 12,500 tons of steel.

The Helian humming bird of Cuba is the smallest bird in the world.

Bright northern lights can illuminate the earth about half as much as a full moon.

15¢ sends 400 EXPORT CIGARETTES or any other Macdonald Brand. Postage included.

Mail order and remittance to: OVERSEAS DEPARTMENT MACDONALD TOBACCO INC. P.O. Box 490, Place d'Armes, Montreal, Que.

This offer is subject to any change in Government Regulations.

price as the present contract). This option, if exercised, would mean the company would deliver the additional ore up to the same date as present contract (or December 31, 1966).

Proceeds from this financing will be used by the company to bring its uranium property in the Bancroft area into production at the rate of 1,100 tons daily by the end of March, 1968.

At the time of writing, the Dyno issue had been pretty well cleaned up and it was understood that there were very few if any bonds available at the issue price.

MARSHALL WELLS OF CANADA

The Marshall Wells issue takes the form of a 6% Sinking Fund Debenture Series "A" due May 15th, 1967, with a bonus of 5 common shares per \$500 plus purchase warrants to buy 25 common shares as follows:

① \$5.00 per share up to May 15/69
② \$6.00 per share up to May 15/69
③ \$7.00 per share up to May 15/67

The offering price of the debenture plus bonus and warrants is \$100 and interest with the date being May 15th, and maturity date May 15, 1962.

The company was incorporated in February of this year by a group associated with Gamble Skogmo Incorporated of the United States, which took over substantially all of the assets and liabilities of the Marshall Wells company, formerly having head office in Duluth, Minnesota.

The Canadian business founded in 1901 is one of the largest of its kind in North America with 18 warehouses scattered over the four provinces. It has a franchise store program through 170 dealer owned Marshall Wells retail hardware outlets.

Complete distribution was only beginning to take place at the close of the week, and it was not possible to ascertain the acceptance to this financing. However, dealers indicated that initial reaction was quite satisfactory.

The Northland Utilities Ltd. was incorporated in 1945 in Alberta with the principal officers and directors being former residents of the Eastern area.

Definitive bonds will have detachable share purchase warrants entitling holder to buy 15 Common shares (\$2.00—par value) per each \$500 bond, as follows:

At \$15.00 per share before May 1, 1961

At \$17.00 per share before May 1, 1964

At \$20.00 per share before May 1, 1967

Its revenues arise from sale of electricity and from natural gas in about equal amounts. It serves 33 communities in Alberta, Saskatchewan and North West Territories.

The offering price is \$100 plus accrued interest, and it appeared to be moving well into the hands of eventual buyers at the close of the week.

B.C. POWER AND P.O.E. U.S. ISSUES

In the U.S. two B.C. issues came out of registration with the Securities and Exchange Commission. One was \$25 million of 4 3/4% Sinking Fund Debentures due 1967 of the B.C. Power Commission offered at 98% and accrued interest.

The other was \$20 million of Pacific Great Eastern Railway Co. 4 1/4% Sinking Fund Debentures due 1967 and priced at \$95.50 and accrued interest. All of the debentures are unconditionally guaranteed as to payment of principal and interest by the Province of B.C. The P.G.E. bonds were cleared up very quickly but while the B.C. Power segment took a little longer to move, it was believed to have been fairly well placed into the hands of investors.

Trading was somewhat lighter in the recent gas financing issues, and both Trans-Canada Pipeline Units and Quebec Natural Gas Units were slightly lower. Trans-Canada Units were running around \$194-\$198 and Quebec Natural Gas around \$170-\$172 at time of writing.

Some observers look for slight easing of interest rates over the next 8 months or so and the comment has been made that most of the financing volume for a few months has been taken care of. There may be some more Provincial offerings to show, but they have not yet come to light.

(The Duffern Leader, Carman, Manitoba—March 28, 1967)

WRECKING CREWS prepare to demolish one of Carman's oldest landmarks, the Jack Jones' blacksmith shop of Villard Avenue. The shop, one of the oldest buildings in Carman, was built some 70 years ago by the late Bob Woods, who operated a blacksmith business there for a number of years. John (Jack) Jones worked with Mr. Wood for several years before taking over about 47 years ago. In the old days, when the blacksmith trade was one of the most important in the town, up to four and five men were employed in the shop at one time. Mr. Jones, who has now sold the property to Chas. A. Main, operated on his work there until ill health forced him to discontinue last fall. Mr. Jones is about 80 years of age.

Family of 109 takes top honors

First prize in the 1967 "Get-of-Sire" Bacon competition has been awarded to a group of hog producers in the Grandview district. The 16 Grandview producers, headed by Walter Hayward, entered a total of 109 hogs all sired by Maple Heights 18J with a score of 88.8 percent.

Prize money totalling \$1,000 is donated by the livestock branch of the Manitoba department of agriculture and the Canada department of agriculture. Awards are made to the 12 highest scoring groups which are comprised of five or more producers marketing at least 50 hogs sired by one boar. First prize is worth \$150.

Second prize went to a group in the Altona area which marketed 56 hogs sired by Elmway 14D. A. Dugald group took third place with 114 hogs sired by Headingly 6J.

Manitoba livestock commissioner, E. J. H. Clark, said the boars were all bred by Man. breeders. "Results of the competition show that the breeders' stock is currently supplying commercial hog producers are of high enough calibre to sire pigs that grade well above the provincial average," he said.

"This is a challenge to the other producers to improve the quality of their hogs by better feeding, management and marketing practices so that we may see as much improvement on the provincial scale."

Mr. Clark pointed out that of 3,516 hogs marketed by all producers in the 42 competing groups, 1,421 graded A (40.4 percent), while of those marketed in the province only 26.8 percent graded A. About 80% of the hogs entered in this year's competition were in the top two grades as compared to a provincial average of 65 percent.

Mr. Clark said a new hog producer competition was inaugurated this year and was held in conjunction with the Get-of-Sire Bacon contest. Eighty hog producers qualified for this contest. The top three individual producers in each agricultural representative area, won prize money.

Len Chozenski of Sclater was the top producer in the province with a score of 85 percent. P. G. Wicke of Altona was second, while Abe Funk, also of Altona, placed third.

Rose Farms Ltd. Import purebred Hereford stock

Rose Farms Limited of Buncleby recently purchased six head of heifers from Bone's Hereford Ranch at Parker, S.D. All six of these purebred Herefords are carrying the service of E. H. Silver Knight, the \$20,000 bull owned by the Bone Ranch.

This is the second time in a year that Rose Farms have imported foundation stock from the well known South Dakota ranch. The Plaindealer, Souris, Man.—March 27, 1967.

Mexico ranks first in the production of silver followed by the United States and Canada.

Officials meet with town planner

Town and Chamber of Commerce officials met last Wednesday night with an official of the Metropolitan Planning Commission of Greater Winnipeg. The purpose of his visit was to give added information about the Planning Service that was being proposed by the Provincial Government, which would be carried out by his organization.

The Provincial Planning Service will be expected to perform all acts and services required to investigate and survey the physical, social and economic conditions in relation to the development of the Municipality. The Planning Service will prepare plans, sketches, formulae, and reports, in respect of any question of town planning, zoning, transit, traffic or any other matter and will perform any other planning duties which are specifically requested of the Minister (Provincial Treasurer) by the municipality. —The Times, Morden, Man.—April 10, 1967.

SASKATCHEWAN ROUGHRIDERS UNCOVER CANUCK IN U.S.

The Roughriders have been bolstered with the signing of Len LeGault, a Canadian tackle who has played with Kansas State university as a first-stringer for the past three years. A native of Kirkland Lake, Ont., LeGault stands six-foot-three, weighing 235 pounds. He was particularly effective on defence with the U.S. college team. Highly recommended to Riders by his coach at Kansas State, LeGault is 24 years of age. The expert training he received in the U.S. is a bonus for Riders since, of course, he doesn't come under the heading of an import.

ADDRESS

Producing clean eggs

When an egg is first laid it is free from stains. However, as hens are not the most careful of creatures nor the ordinary hen house the tidiest of places its fresh appearance does not last long without protection.

Perhaps the most persistent enemy of egg cleanliness is dampness. Stains found on eggs are due to moisture. Wet litter, for instance, is the pad and the birds feed the stamps that put a good many stains on eggs. Excessive moisture in litter is a serious problem in itself but it can be eliminated by more insulation in the house, proper ventilation or suitably managed deep litter. Fewer dirty eggs will be one of the general benefits.

Best design is also important in egg cleanliness. A nest not built to hold litter to at least a depth of three inches should be remedied to this capacity. Ample litter helps cover soiled materials and provides a cushion against breakage. Although straw is often the handiest material on the farm it has the drawback of sticking to eggs and if damp causes staining. Wood shavings, available at a low price in many parts of Canada, make an excellent litter. Any nest made of straw should be changed from time to time. The ratio of hens per nest is also important, the recommended number being not more than five per nest.

Cleanliness of eggs is such a general requirement that most poultry supply catalogues depict egg cleaning devices. These range from simple hand buffing pads to automatic egg washing machines with special detergents. One of the features of the new wire cages with sloping floors, as well as the modern laying cages, is their ability to reduce the number of soiled eggs. Community nests for which easily read plans are available from the Canada Department of Agriculture, have also found favor with many poultrymen.

Gathering time is when some soiling might occur. Baskets made of wire, either plastic covered or plain, have the advantage of allowing eggs to be cooled quickly but careful filling is required. Considerable cleaning is necessary if a broken egg runs down through the basketful. The procedure at the Experimental Farm at Harrow, Ont., is to foster a small wooden box, a little larger than a half egg case, on a wall in each pen at head level. The eggs from the nests are put in trays in this box until it is convenient to take them to the egg room. A square of cloth tacked to the cupboard top and job hang curtains in front acts as a door to keep out dust. Tacked on the bottom of the cloth is a light strip of wood to keep it hanging in place. Removing eggs from the nest at frequent intervals is very important in keeping down the number of soiled eggs and this cupboard is always handy as a temporary holding place.

Good dressing for fruit salad: one-quarter cup of heavy cream whipped stiff and folded into half a cup of mayonnaise-type salad dressing.

MANITOBA STATISTICS

Manitoba exported more than \$130 million worth of goods to foreign countries in 1966—\$30 million more than the year before. Meanwhile Manitobans have grabbed up an additional \$42 million worth of imported goods.

The new edition of the department of agriculture's pocket-sized "Facts About Manitoba" is an encyclopedia of information which indicates the extent of the provincial boom and gives a glimpse of its flourishing physique.

It notes that initial payments on wheat, oats and barley show an increase of almost \$50 million since 1955; that our lakes yielded about six and a half million more pounds of fish last year; that the value of petroleum and coal jumped from eighth place to third in industrial importance; and that value of production of crude oil is up \$4 million. Population figures soared by 75,000 since 1951.

Flood investigators start public hearings

After five months of intensive examination of flood control projects and their economic benefits, Manitoba's Royal Commission on Flood Control-Benefit this month (May) is beginning a series of public hearings designed to get a wide-ranging view of flood matters.

The five-member commission, headed by H. W. Manning, already has received close to 30 briefs. These briefs, together with any other submissions, will be aired at the meetings. These begin with a two-day session (May 7 and 8) at the Legislative Building in Winnipeg.

The commission will move to Brandon for a May 16 hearing at the courthouse, followed by a May 17 hearing at the Portage la Prairie courthouse. Final hearing scheduled to date is at Morris municipal hall, June 8. All hearings begin at 10 a.m.

The commission was set up in November to make a full enquiry and findings as to the value of benefits received from protection measures compared with the cost involved.

CUBIC MEASUREMENT

The cubic measurement unit in ancient Egypt was approximately the length of a man's arm from elbow to the end of the middle finger.

Patients of high-priced dentists often wish they had buck teeth.

Patterns Basic beauty

Basic beauty—the star of your spring, summer wardrobe! Sew two sleeveless versions of this shirtwaist dress; you'll love the flattery of its simple, classic lines. Have it in gay cottons, linen for daytime; a glamorous shantung or tulle for dressy occasions too!

REGULAR MEETINGMinutes of meeting of the
Irma Municipal District Hospital
Board held in the Village of Irma
on the 21st day of May, 1967, in
the office of the Secretary-Tre-
asurer of the Village of Irma at
the hour of 9 p.m.Full board present: F. M. Hill,
D. H. Gunn, A. C. Archibald,
Secretary-Treasurer A. C. Char-
ter.Chairman, Mr. F. M. Hill.
Unfinished business.Unpaid hospital accounts re-
Wainwright Hospital, Mr. A. C.
Archibald reported on interview
with the Board of the Wain-
wright Hospital regarding col-
lection of old unpaid hospital pa-
tient accounts that had been
charged back to the Irma Board.It was then moved by Mr.
Gunn, seconded by Mr. Archi-
bald, that the Irma Board do not
accept any of the following ac-
counts remaining unpaid as sub-
mitted to the Board from the
Wainwright hospital.
J. Jones, Bert Kennedy, Nick
Chomik, Martin Lovig, Roy Ol-
sen.It was further moved that the
remainder of unpaid patient ac-
counts as submitted by the
Wainwright Hospital Board to
the Irma Board, should be re-
mitted as such were collected
from time to time to the Wain-
wright Hospital.This was moved by D. H. Gunn,
and seconded by Mr. Archibald.
The policy of the Board in re-
spect to out patients accounts
were discussed and no change
in policy was made at the pre-
sent time.Re Hospital Capital Depreci-
ation Amendment to agreement
between Wainwright Hospital
and the Irma M.H.D. No. 55.Approval of this amendment

**WHY THE
YOUTH OF ALBERTA
IS VOTING
LIBERAL
IN THIS
FEDERAL ELECTION**

LAND OF OPPORTUNITY

As young people we know that the Liberal Party—the only
national party from coast to coast—has worked to uphold
Canada and open new horizons for young people.

RESOURCES DEVELOPMENT

We young people know that Alberta's prosperity is only
one phase of the Liberal program for mineral and industrial
expansion all across Canada.

SOCIAL SECURITY

Young people realize that family allowances, old age
pensions, national hospital insurance, and other Liberal mea-
sures, provide us with a base of security so that we may go
forward with confidence to build our nation.

CANADIAN CITIZENSHIP

As young people, we are proud of our Canadian Cit-
izenship, established and fostered by Liberal governments.

EDUCATION

As young people, we approve of Liberal assistance
to education, the \$100,000,000 Canada Council, univer-
sity grants, and vocational training grants of \$1,415,700
in Alberta alone.

Young people are voting
for these Liberal candidates:

Municipal District of Wainwright No. 61

Notice to Ratepayers

The Council of the Municipal District draw your attention to the definition of "farm buildings" as per Section 2 of the Assessment Act being Chapter 187 R.S.A. 1942 as amended.

"farm buildings" means a farmers' or a farmer tenants residence situated on farm lands and the buildings and improvements necessary for the farming operations of farm lands."

If farm buildings are rented to or occupied by persons, and not used exclusively for farming purposes, that such building or buildings shall be liable to assessment and taxation.

Please govern yourselves accordingly.

CHAS. WILBRAHAM, Secretary-Treasurer,
Municipal District of Wainwright No. 61.

Irma and Bruce Boys To Attend Farm Young People's Week

It has been announced in Calgary that Keith C. Currie, of Irma, and Ronald Babbitt, of Bruce, have been selected to attend Farm Young People's Week being held at the University of Alberta in Edmonton from June 4 to 15.

They are among 35 farm boys and girls being sent to this short course by the Alberta Wheat Pool. Nominations of the young people were made by farm organizations and selection was made mainly on the basis of participation and interest in rural community activities.

Cattle Improvement

Another step towards better cattle in the district has been taken with the starting up of an artificial insemination unit at Irma. Bill Dunbar of Irma has started this unit, called the Sprucebar A.I. Unit. He will be using frozen semen from Guelph, Ont. His holding unit is cooled by dry ice to insure proper storage conditions for the semen. Arrangements have been made to keep semen for the following breeds, Holstein (bull Pomona Victorgram and Hawkheart Reflection Sovereign), Jersey, (bull Brampton, B. P. Garret), Hereford, (bull Polled Larry Domino 5F), Angus (bull Anokamere W2 and Blackbird Bachelor of Anoka 30th), Shorthorn, (bull Braedon Cancer).

These are all top quality sires and should give the customer using this unit very good results. At the present time Mr. Dunbar has two hundred cows listed and expects that this number will be increased soon.

University Feeders' Day.
This Saturday, June 1, starting at 10 a.m. at the University Livestock Farm is an event all stockmen should be interested in. The staff of the Department of Animal Science at the University will present the results of their research over the past year. Topics dealing with the feeding and management of Sheep, Swine, Beef Cattle, and Dairy Cattle will be discussed and questions answered. There is also a period on livestock diseases and problems.

Weeds Can Kill Livestock.
There is not much heard about this problem but farmers do sometimes lose stock from poisonous weeds. Tall Larkspur, Low Larkspur, Death Camas, Water Hemlock, White Loco Weed and Shory Loco Weed are the usual offenders. It is important for stockmen to be able to identify these plants in order to avoid losses. A bulletin, "Weeds

Home Economist
Newsnotes

—Your District Home Economist,
Edna M. Craig.

Hello homemakers:

Spring is Rhubarb season! Do you have a patch? If you do, you are very fortunate, especially if you do, you are very fortunate, especially if you use rhubarb in many delicious ways.

Here is just one of the numerous recipes:

Rhubarb Orange Pie

Filling:
4 cups rhubarb pieces (cut 1 inch pieces)
1 orange peeled and cut in pieces
¾ cup brown sugar, firmly packed
¾ cup granulated sugar
¼ teaspoon nutmeg
½ cup flour
½ cup melted butter

Roll out pastry for one 9 inch crust. Allow ¾ inch overlap to make a good seal for edge of the pie.
Combine rhubarb, orange, sugars, nutmeg and flour. Place in pie shell. Pour melted butter over all. Top with either a full crust or a lattice crust.
Bake in a hot oven 425 degrees F. for 40-45 minutes. This makes one 9 inch pie. Sounds good, doesn't it? If you'd like further rhubarb recipes send to my office in Wainwright for our pamphlet on rhubarb.

There is an Infra Red ray grill or board the Empire of England and to cook steaks in a matter of seconds.

The Empire of England needs 36 vacuum cleaners, 60 carpet sweepers, 4 dock scrubbing machines, 3 scrubbing and polishing machines and 3 floor dryers to keep it clean.

"Poisonous to Livestock" is available at this office and gives illustrations and descriptions of these weeds and also discusses control measures for them.

To The People of the
Federal Constituency
Battle River-Camrose

The present government of Canada is on trial for policies it has followed where labor, trade and agriculture are concerned.

Any study of the economy of Canada will reveal very quickly that the welfare of agriculture is very closely related to both labor problems and trade problems. If there is any lack of balance in either labor or trade, agriculture is one of the first industries to suffer.

The present trade situation is one which is completely out of balance. Canada is the third trading nation in the world; yet our deficit account with the United States has grown rapidly from \$601,000,000 in 1949 to \$1,650,000,000 in 1956. To make matters worse the United States has surpluses of the same things which Canada is to sell.

That is not all. At the same time trade with Great Britain, a country which needs our farm products, has fallen off steadily since the war. Now, coupled with the present government's handling of inflation and its effect on labor costs. As a result of this, the Canadian farmer is in a position of weakness or inability to control inflationary trends, the prices of things produced in Canada's factories have had to rise again and again to enable employers to pay workers' necessary increases in pay.

Any economist will tell you that the combination can have but one effect on the farmer. He sells goods wholesale in dwindling markets. He buys goods retail in markets where prices are always rising. We don't need a statistician to tell us that people are leaving their farms. We have only to look around us. If we ask ourselves whether the situation is good for Canada, we can only give one answer, an emphatic "NO."

A Conservative government will do everything possible to expand Canada's present markets and promote new markets wherever possible. A Commonwealth conference should be called to assist in this. Every attempt will be made to create a better balance in our trade relations with the United States. Above all, a Conservative government will admit that a serious situation exists. The present government is not prepared to admit this.

John Diefenbaker has lived in the West nearly all his life, and understands the West's problems. Cliff Smallwood has farmed in the West, and knows from experience what the farmer's problems are.

Let's give them a chance to try to solve our problems. Give Cliff Smallwood your vote in Battle River-Camrose on June 10.

Two free patterns — printed in our Alice Brooks Needlecraft book — stunning designs for yourself, for your home — just for you, our readers! Dorens of other designs to order — all easy, fascinating hand-work! Send 25 cents for your copy of this wonderful book right away!

COUNTY'S INDIGENT PATIENT COSTS DROP

Hospitalization costs for indigent patients in York County dropped to \$74,162 in 1924, a decrease of close to \$7,000 over the previous year. Whitechurch township's costs decreased from \$13,003 to \$5,441.

—The Era and Express, Newmarket, Ont., Jan. 24, 1925.

The automatic steering gear for ships was first installed in 1922.

North Sask. great promise

Mineral exploration and development in Saskatchewan's Lac la Ronge region is expected to reach record proportions this year.

This is the opinion of mining men and government officials keeping in close touch with developments in the area.

Victor Bjarnason, field foreman for Midwest Diamond Drilling states: "Indications point to a very active season, especially with aerial magnetic survey maps being made available."

Dan McMillan, owner of McMillan Diamond Drilling, believes there will be more companies and more prospectors in the area than ever before. "This should be a very good year for the area."

Howard Hall, in charge of exploration for Rio Canadian Canadian Exploration, says: "The area shows great promise. That's why we're here."

Malcolm Norris, supervisor of the Prospector's Assistance Plan for the provincial mineral resources department, states: "At this time, all indications point to the most active season this region has ever experienced." He bases this on the large number of companies planning to prospect and explore the area this year.

One cannot help but notice the high optimism current here in La Ronge.

Midwest put up an \$8,000 base camp in the settlement last fall and moved in considerable equipment. "We plan to be around for awhile," says Foreman Bjarnason.

Midwest has the diamond drilling contract for Anglo Rouyn. It has drilled 12,000 feet of core since early January and presently has three drills and 18 men on the job. The company has not announced the drill results.

McMillan has diamond drilling contracts totalling 17,000 feet. The company is presently working on the Fano property, just east of here.

The recent entry of Rio Canadian Exploration into the Lac la Ronge field points up growing interest. Nigger companies are showing in the region. Rio is an exploration arm of internationally known Rio Tinto, which controls Anglo Rouyn.

La Ronge has become the hub of mining activity extending east as far as the Hanson and Deschambault lakes area and north to the Brabant lake area. Encouraging copper wires have been indicated at Brabant lake, while unusually high silver lead and silver values have been disclosed in the Hanson-Deschambault area. Both areas are undergoing intensive development right now.

Mining men say the aerial magnetic and electro-magnetic and electro-magnetic mapping being done here for Saskatchewan's mineral resources department will furnish information sure to spark still greater exploratory activity.

One of the two areas being mapped lies south and east of Lac la Ronge, the other extends northeastward in a belt taking in the Forbes, Larouge, McLenan lakes region. Maps of the region should be available early in July.

Also aiding the search for base metals in the Lac la Ronge region will be the Prospector's Assistance Plan, which will have ten parties in the field this year.

The provincially sponsored Prospector's School will also provide training that will help would-be prospectors on the road to new discoveries.

Public opinion is, with multitudes, a second coincidence with some, the only one — W. R. Alger. I will utter what I believe today, if it should contradict all I said yesterday.

—Wendell Phillips
Genius is infinite painstaking.

Cereal grain research helps in farm profits

Success of researchers in developing new and better varieties of cereal crops is emphatically pointed up in the Manitoba Department of Agriculture's latest publication "Small Grains For Profit".

The 24-page booklet, being mailed to agricultural representatives for distribution, lists a total of 28 varieties of cereal grains suitable for Manitoba conditions. The impressive feature is that over half (13) have been developed in the past five years.

In fact, even while the booklet was being printed, two new types of barley—Swan and Trail—were licensed, too late for inclusion in the publication.

Hon. C. L. Shuttleworth, minister of agriculture, said the booklet should encourage farmers to use the latest varieties to avoid rust epidemics.

Besides dealing with recommended seed varieties, the publication outlines proper cultural practices in preparing seed beds, crop sequences, use of fertilizer, weed control through good cultural practices supplemented by herbicides, harvesting methods aimed at preventing peeling and cracking, disease control and grain storage.

The booklet—a revision of a 1922 publication was prepared by Prof. L. H. Shebek, L. B. Siemens, Dr. George Friesen and Prof. H. M. Lapp, all of the University of Manitoba; Dr. R. P. Peterson of the federal cereal breeding laboratory, Dr. T. Johnson, federal plant pathologist and two officials of the Manitoba department of agriculture—P. H. Ford, assistant director of soils and crops and H. A. Craig, director of the publications and weeds branch.

The new varieties listed since the 1922 publication include Selkirk and Rammer wheats, Gary, Rodney and Vicar oats, Parkland malting barley, Husky, Vantmore and Herta feed barleys, Marine and Raja flax and Antelope winter rye. Mr. Shuttleworth said sufficient booklets for all interested persons would be available through the 35 agricultural representatives' offices, or through the department's publications branch in the Legislative Building.

Fish exhibit

popular at Sportsmen's Shows

The skyrocketing popularity of sportfishing in Saskatchewan is expected to create keen interest in an eye-catching live fish exhibit being displayed at Sportsmen's Shows this spring, Saskatchewan Fisheries Director, A. H. MacDonald said here.

This aquatic exhibit will be shown at Sportsmen's Shows in Prince Albert, May 3 and 4; in Saskatoon May 10 and 11; and in Moose Jaw, May 17 and 18.

The exhibit, built by the fisheries branch five years ago, was devised to create additional interest in Saskatchewan fisheries resources, familiarize people with game species found in provincial waters and spread the awareness of the need for conservation and intelligent management. Mr. MacDonald said the exhibit had been highly popular wherever shown.

An eight-by-ten foot display board, featuring a colored mural of aquatic life is surrounded by Saskatchewan scenes depicting various phases of lake management.

Keeping fish alive in the aquarium during showings is a two-man, 24-hour-a-day job, according to Mr. MacDonald. It involves the operation of a complex system of pumps, oxygen aerators and filters.

Live fish in the exhibit include northern pike, pickerel, trout, grayling and perch. Carp are also shown as a reminder that this undesirable fish, unless controlled or eliminated, will ruin sportfishing in some Saskatchewan lakes.

A DIFFERENCE

A young woman was taken into dinner one night by William B. Gladstone, the distinguished British statesman, and the following night by Benjamin Disraeli, his equally distinguished opponent. Asked later what impression these men had made upon her, she replied thoughtfully:

"When I left the dining-room at sitting next to Mr. Gladstone, I thought: 'he was the cleverest man in England. But after sitting next to Mr. Disraeli, I thought I was the cleverest woman in England!'" —The News, Indian Head, Sask.—April 18, 1925.

A WORTHY PROJECT

Following lengthy discussion and considerable investigation, it appears that plans for a new curling rink for Morden are becoming more concrete, and are beginning to advance at a more rapid pace. As members of the Curling Club would be the first to suggest—it's high time. A growing and progressive community like Morden should be continually striving to improve its facilities for recreation as well as for commerce. Although the old rink has served well and been the centre for countless hours of pleasure and excitement, its facilities are becoming inadequate for the needs of this burgeoning community.

We wish the club every success in its efforts. May the inevitable growing pains be kept to a minimum, and may all citizens respond generously with any assistance that might be given. —The Times, Morden, Man.—April 10, 1925.

Vermilion man marries pen pal of fifteen years

Marriage on Saturday last at Bolover, England, climaxed a Canadian-English pen pal friendship that began nearly fifteen years ago.

James Blake, aged 29 years, of Vermilion, Alberta, married Marjory Chambers, 27, of Carr Vale. The bride said: "After all these years, we finally visited England and we were engaged a week later."

James Blake is the son of Mr. and Mrs. W. Blake who for some twenty years lived in the Kilmorie district. Last fall Mr. and Mrs. Blake moved into town and James became an employee of the Dept. of Highways. He went overseas to see his pen pal last December. The correspondence started when the two were children through the Winnipeg Free Press pen pal page.

The happy couple will sail on board the Cynthia April 18th for Vermilion where they will make their home.—The Standard, Vermilion, Alta.—April 11, 1925.

For a deliciously different lunch-dish try scrambled eggs on toast topped with chicken a la king.

SCHOOL REMEDY

It appears that three things are necessary to hold teachers in the province: First, salaries must be increased to compete with those of other provinces second, living and working conditions must be as attractive as possible, and third, we must make as effective use of our teachers as possible.

—Humboldt (Sask.) Journal

Peanut Sweet!

Slice it thin, butter it generously and watch it disappear! Here's a tasty nutswet bread that's easy to make when you use Fleischmann's Active Dry Yeast. If you bake at home, be sure to bake some soon!

Peanut Butter Bread

1. Scald 1 cup milk
2. In 1½ cups granulated sugar
3. 2½ teaspoons salt
4. ½ cup peanut butter
5. Cool to lukewarm.
6. Meanwhile, measure into bowl 1 cup lukewarm water
7. Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast
8. Let stand 10 minutes, THEN stir well.
9. Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Needs no refrigeration

Work in additional 3 cups (about) once-sifted all-purpose flour

3. Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl, brush top with melted shortening. Cover, let rise in a warm place, free from draft, until doubled in bulk—about 50 minutes.

4. Punch down dough. Have the dough, let rest 15 minutes, then shape each half into a loaf. Place in greased loaf pans (8½ x 4½ inches, top inside measure). Brush with melted shortening. Cover, let rise until doubled in bulk—about 40 minutes. Bake in a hot oven, 400°, 30 to 35 minutes. Yield—2 loaves.

Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Stir in lukewarm milk mixture and 2 cups once-sifted all-purpose flour and beat until smooth and elastic.

Tree planting car on its 37th annual tour of the Prairies

Donated by the Canadian Pacific Railway, serviced and moved over both Canadian National and Canadian Pacific through the courtesy of the Railways, and supported by voluntary donations, the Association's "travelling classroom" has carried inspiration and instruction to the people of the West during the past 36 consecutive years. In this period it has travelled over 100,000 miles, and played host to one million three hundred thousand people.

Tree planting is an essential element in the stabilization of agriculture in Western Canada. Successful tree plantings provide protection for people, crops, soil, and livestock, and also make the prairie a better place to live. As shelter belts around the prairie farm home, they make possible, by the protection they afford, successful gardens and supplies of small fruit; thus helping to keep the home table supplied. They add a new pleasure to home life and the comforts of living. As field shelters, although they do not obviate the need for proper cropping and soil management practices, they can be so integrated with them that these practices are made more effective.

Meetings are held in the Car, at eight o'clock in the evening. When schools are open, arrangements are made with the school authorities to have the Pupils visit the car during school hours. Sound films show the results obtained by farming people through planting trees, and give practical instruction in tree planting and home beautification. An illustrated talk covers planting methods, which trees to plant, the laying out of a shelter belt, and planning the home grounds, with information on the care of trees and shrubs. A question period follows each evening meeting.

SHELTER BELTS — PAY BIG DIVIDENDS

The Canadian Forestry Association is a National Association of 25,000 members, working to secure public understanding and co-operation in the conservation of our natural resources of SOIL, FORESTS, WATERS AND WILDLIFE. It is entirely supported by voluntary grants and donations.

OUR TRAVELLING SCHOOL HOUSE

We have received inquiries about our unique Tree Planting Car from people and organizations in many parts of Canada and the United States. Letters also come from other countries. Such letters are always somewhat of a surprise, particularly when you receive one from Australia. We wonder just how the writer heard about our "classroom on wheels".

Maybe we are just being modest, as possibly no other educational undertaking has used such interesting facilities over so many years to carry on an educational mission. In the early thirties this travelling theatre and lecture car was equipped with 16 m.m. sound projectors, and presented the first sound movies in many a small prairie community. The Tree Planting Car has enjoyed a great deal of publicity through both Press and Radio. It has been the subject of talks on national and overseas broadcasts, and articles in leading publications.

Most gratifying of all is the welcome it receives from the people who know it best, as it carries its message from one prairie town to another over the long highways each year. Donated by the Canadian Pacific Railway and placed in service at the close of the First World War, this classroom, with capacity for one hundred people,

has visited scores of communities each year, on both Canadian Pacific and Canadian National through the courtesy of the Railways, making the 1937 tour the 37th without a break.

This year, as in the past few years, the grandchildren of those who attended meetings in the Car during its early years of service, will be marching from their schools to visit the Tree Planting Car. To some of them it will be their first time on a railway coach, and to all an experience their grandparents still remember, lessons and films in a school house on wheels.

Safety awards won by CNR employees

Safety shields, emblematic of the lowest accident rate among district and divisional employees on the Canadian National Railway western region, have been won by the Manitoba district and the Portage-Brandon division. The awards, presented by J. R. McMillan, vice-president, western region, were for records set during 1936. A. Lucas, general superintendent, Manitoba district, and A. C. Nichols, superintendent, Portage-Brandon division, accepted the shields on behalf of their employees.

The roads built by ancient Rome still form the skeleton for the highways of Europe.

BIGGEST TULIP BED—A million tulips in bloom in Ottawa. Massed in this one spectacular bed, only part of which is seen here, will be 70,000 tulips, the largest single display of the flowers in Canada's capital city. The tulips will be at their best during the Annual Canadian Tulip Festival from May 13 to 20.

(The Sun, Swift Current, Sask.—March 20, 1937)

NEW CANADIANS ENTERTAINED BY LOCAL COUNCIL WOMEN—A number of New Canadians presently attending Basic English classes, were guests of the Immigration and Citizenship Committee of the Local Council of Women at a social held Monday evening at the home of Mr. and Mrs. L. A. Sprague, North Hill. The picture shows a recent Hungarian immigrant, Ginter Laszlo, playing the violin, while his brother, extreme right, and a friend listen to the melody. He was accompanied by Margaret Ann Waddell, who attended as pianist for the unusual social event. —Sun Photo-Scan.

Thaws provide plenty of water at Wolseley

Wolseley residents are assured of a good water supply amounting to three million gallons for their newly-installed modern conveniences.

The mild weather two weeks ago caused melting of snow in the district and in a very short time water in the reservoir in town was running over the dam. The new earth-fill dam built South of Wolseley by P.F.R.A. last fall was filled up and excess water flowing through the drop outlet.

P.F.R.A. officials informed editor Harry Scriver of the Wolseley News that quantity of water stored in the two reservoirs would

SON FOLLOWS IN FATHER'S FOOTSTEPS AS KEITH MORRISON HEADS C of C

Keith L. Morrison, a practicing barrister and solicitor of St. James, was the unanimous choice to succeed J. R. Rice as president of the St. James chamber of commerce, at the annual meeting held Wednesday evening in the Albany Room of the Assiniboine Hotel. Mr. Morrison follows in his father's footsteps as he takes over the presidency of the local chamber of which his father was president some 20 years ago.—The Leader, St. James, Man., April 11, 1937.

amount approximately to three million gallons, the town reservoir holding one million and the new dam backing up the other two million. —The Sun, Grenfell, Sask., April 3, 1937.

Double back-crossed tomato

A number of promising selected lines of early ripening, large-fruited tomatoes have been developed from co-operative breeding trials at nine Experimental Farms across the prairie provinces. Dr. C. Walker of the Maydon Experimental Farm, Canadian Experiment Station of Agriculture, says some of these lines are as early ripening as the Earliest variety and have large fruit size.

In the past, several excellent hybrid and open-pollinated varieties have been developed but none had the desired degree of earliness combined with large fruit size. In an effort to consolidate the several tomato breeding programs a co-operative project was recently initiated. This project involves a double back-cross breeding arrangement in which the very early maturing Earliest and the mid-late maturing large fruited Morton varieties serve as parents. The nature of the back-cross lines used depends on the location of the experimental farm where the selection work is done. The C.F.R. main line is used as an arbitrary east-west geographical division. In all selections emphasis is placed on early ripening and large fruit characters.

It is hoped that eventually through this double back-cross breeding work, that tomato lines will be obtained that will be useful for developing hybrid varieties or in further crossing.

TAKE SPECIAL COURSE—About a hundred youths, mainly from rural communities on the Prairies have almost finished a two-months special army militia course at Winnipeg. Offered each year at this time, the training is popular with the men who otherwise might have little to do on the farm at this season. They get full pay and allowances and qualify as a trained soldier before returning to homes and perhaps part-time militia activity. Here Bill Somerville of North Battleford, Sask. left, goes over a diagram with Robin R. Canadian Army photo.

You can put away your "red flannels"

It looks like Swift Current and district people can get the mothballs out and stow their "red flannels" away until next October, because the geese have started to wing north and the gophers are showing.

"Mac" McGillivray, salesman for a bread company, reported seeing a flock of honkers vesting north Friday morning, and George McLeod, Riverview resident, reported a similar sight Saturday morning. These were the first sightings of wild geese to come to The Sun's attention.

Reporter Ray Johnston spotted a gopher one day last week—the first to be reported locally in at least two years. So that makes it appear that the gophers are making a comeback.—The Sun, Swift Current, Sask.—March 27, 1937.

Local News

Mr. Pryce Jones of Edmonton was in Irma one day last week. He was returning to the city following a visit at Lyle with his daughter, Mrs. King.

We are most sorry to record the passing of Mrs. G. W. Hardy, the former Daisy Herricks, who was well known and highly regarded in this district for many years. After several months of illness she passed away in Mannville hospital on Thursday, May 23. Dearest sympathy is extended to Mr. Hardy and other members of the family. Funeral services were held from the Irma United church on Monday of this week. Full obituary next week.

Mr. and Mrs. Dave Hodgins of Shawville, Quebec, are visiting with the latter's brother, Mr. W. T. Barber and family. Mr. Hodgins is a brother of the late Mrs. Barber.

Mr. Lowe MacDonald of Halifax returned home this week

after spending two months at the home of his sunny Mrs. L. MacDuff. Mrs. MacDuff accompanied him back to visit relatives.

Mrs. Victor Nesdale and small son are visiting at the O. A. Lovig home.

Mr. Dave Paul is a patient in Winwright hospital this week. Mr. S. H. Simmons, highly respected former resident of Irma, passed away at his home at Kinella early Monday morning. The sympathy of all in the Irma district is extended to the members of his family. Funeral services were held from the Im United Church on Thursday of this week. Full obituary in our next issue.

Professor Mosley of New York is a guest at the Gratton View hotel this week. Mr. Mosley is a Professor of Entomology and is studying insect life in the Battle River Valley.

Mrs. A. A. Fischer is on the sick list this week. Those who attended the wedding recently at the Cold Lake Air Force Base of Mr. George

Rogers, RCAF, and Miss Lorraine Saville were Mr. and Mrs. C. Archibald, Mr. I. Archibald, Mrs. A. Knudson, Mrs. H. Larson and Mr. Jno. Archibald Sr. Mrs. K. Coffin and Mr. and Mrs. V. Hutchinson were Edmonton visitors this week.

Mr. C. W. Daniels has been called away to Penticton, B.C. to see his mother who is very ill.

The next meeting of the Irma W.I. will be held at the home of Mrs. Wes Parsons on Thursday, June 6 at 2:30. Hostesses, Mrs. G. Coulman and Mrs. Zoost. Raffle, Mrs. P. E. Jones. Mrs. C. Barber will give a report of Provincial Conference. Roll Call, Favorite Song. Anyone wishing transportation to this meeting contact Mrs. Anquist.

Many people from Irma and district attended the sacred concert by the Camrose Lutheran College choir last Sunday and they were very favorably impressed by their performance and hope they will return next year.

Boys' Stampede HATS

For the bigger boy. Rush hat in white with "star" decoration. Washable and waterproof. Cool and good looking. Priced at **3.50**

BOYS' HORSEHIDE JACKETS

Black. The boys love them, they are strong, soft and pliable. Stand all kinds of abuse. Zipper front, shoulder tabs with decoration. Sizes 8 to 14. SPECIAL **12.98**

Collegiate style. Sizes 16 to 18. SPECIAL **14.98**

BOYS' Sport Shirts

Cotton Sport Shirts. Smart indeed. Sanforized cotton that's cool and dressy in nice printed patterns. Good quality. Well made with two way collar. Sizes j to 10. SPECIAL **2.49**

Boys' SHIRT and PANT Ensembles

Smart and durable for school or play. Made by G.W.G. from summer moleskin in nice taupe grey shade. Fully shrunk.

● **SHIRTS**—
2 button front, 2 way sport collar, that good G.W.G. standard. Sizes 9 to 16. Priced at **3.50**

● **PANTS**—
With wide belt loops. 2 back, 2 side pockets. Cuff bottom. Sizes 10 to 14. Pair **4.95**

BOYS' WORK Gloves

"Western Label" gloves made roper style from soft, pliable cowhide. Insewn seams. Sizes 7 - 8. Pair, priced at **1.75**

Boys' T Shirts

● **White Stanfield T SHIRTS**
Made just the same as the men's. Pure white. Non sag nylon neck. Priced at **1.25**

● **Stanfield Regimental stripe T SHIRTS**
Several shades, all sizes. Non sag neck. Priced at **1.49**

FOR WHOM AM I GOING TO VOTE ON JUNE 10th?
A Serious Question - Requiring a Serious Answer

We Suggest
YOU VOTE FOR
Carl Heckbert
Your Liberal Candidate

BECAUSE:-

He is well qualified to represent our Constituency in Parliament.

He would be a member of the Government caucus and in a position to present our views at the proper time.

He knows the needs of our farmers and business men and is deeply interested in social legislation affecting the home.

He has had wide experience on the provincial and dominion level which makes his services unusually valuable to our people.

He has had fourteen years of municipal experience as councillor and Mayor of the Town of Vermilion.

He was for four years Chairman of the Minburn Vermilion Health Unit.

He is available for full time representation for his constituents.

He is a speaker who can effectively present our views to the caucus of the Government and on the floor of the House of Commons.

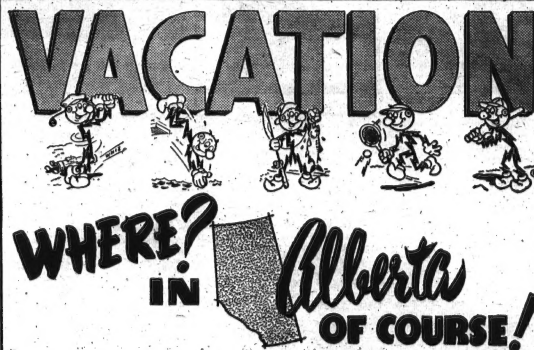

He proposes establishing a Constituency Committee representative of all phases of our community life and on a **STRICTLY NON PARTISAN BASIS** to work with him in suggesting legislation suitable to our needs.

He makes no glowing promises for impossible achievements but agrees to work for and with the people of this Constituency and to report back to them periodically.

WE NEED A REPRESENTATIVE ON THE GOVERNMENT SIDE OF THE HOUSE OF COMMONS

Let's Put Heckbert in the "House"
For Positive Representation

(Inserted by Battle River-Camrose Liberal Association)

There are things to see and do . . .
Places to visit and enjoy . . . anywhere
and everywhere in Alberta.

Choice?

Pick any one of hundreds of places in the holiday-land of Alberta . . . Waterton, perhaps . . . or Dinosaur Park . . . maybe Banff . . . Jasper . . . one of the several provincial parks . . . Writing-on-Stone . . . Elkwater Lake . . . Elk Island. Make a choice! Have fun!

Remember too, many of your Electrical Appliances can be just as conveniently useful on a vacation as at home.

CALGARY POWER LTD.
"SERVING ALBERTA"
